City Flier Is Jet Victim

Squadron Leader Charles Leonard Savile, 29-year-old Edmonton flier, was killed in an airplane crash in England Monday.

The ICAF pilot was flying a biplane jet-propelled plane on a routine flight when his plane crashed at Ham Island, near London.

Although the flier crashed Monday, his name was withheld until his parents, Mr. and Mrs. A. L. Savile, 1014 144 street, were notified by the British Air Ministry.

Sgt. Ldr. Savile was a graduate of Royal Military College and brother of North Saskatchewan northern pilot for many years, and now an executive official with Canadian Pacific Airlines.

Sgt. Ldr. Savile was awarded the Air Force Cross in 1943 in recognition of his outstanding conduct in training pilots. He was serving at No. 12 Service Training School at Brandon at that time. He was married in 1944 to Margaret Elva Nickling, of Brandon.

Six Injured in Two CN Train Accidents

BOISDALE, N.S., Sept. 1.—(CP)—Three persons were injured when a Canadian National Railways passenger express plowed into a stalled freight train at nearly 40 miles an hour near the CNR station here today.

Passenger Hits Freight Extra

GEORGETOWN, S.E. (CP)—Three train crew members were injured today when two Canadian National Railways trains collided here, 28 miles west of Toronto.

CHS officials said an east-bound passenger train collided with the rear of an extra freight train. The freight train was stalled on the main line. The passenger train was travelling at 20 miles an hour. About 20 cars were derailed and 300 feet of track torn up.

Injured were Engineer H. Hendricks, brakeman J. Brakeman J. Metropolis, minor cut, and Fireman J. F. minor injuries. All three are from Toronto. A number of cattle were injured and had to be destroyed.

HOLLYWOOD, Sept. 1.—Our Loveliest Mother spent another wonderful day in Hollywood Tuesday. In the morning she had a close up of the actual shooting of a picture at Enterprise Pictures Studio where she was introduced on the set to Barbara Bel Geddes, recent sensation of the film world, and handsome, dashing Robert Ryan.

After the picture was over, Mrs. Anhalt was taken to the set of the picture "I Remember Mama," starring Ryan and Barbara Bel Geddes.

MOM Anhalt last week which she enjoyed the most, her studio tour or her tea at the Dunne mansion.

She also can't get over how friendly these Hollywood stars are. Mrs. Anhalt was taken to the set of the picture "I Remember Mama," starring Ryan and Barbara Bel Geddes.

Vampire Jet Sets Record

Vancouver, Sept. 1.—(CP)

An RCAP Vampire jet aircraft set a new world record today by flying at 480 miles per hour for the first time.

The 440-mile jet aircraft, piloted by Lt. Col. J. H. McLeod, set the record on a flight from Vancouver to Seattle.

The aircraft, which is a modified version of the standard Vampire, was flown at an altitude of 10,000 feet.

The record was set during a test flight for the Canadian Air Force.

Sunny, Warm Is Forecast

Sunny and warm, with cooling breezes—this is a great way to begin the week.

According to the weather bureau, that's the way it's going to be for a few days.

Temperatures are five to 10 degrees above normal for this time of year, and not too far from the all-time record of 85 degrees set last March.

Here are the synopses and forecasts by the Dominion public weather bureau this morning.

SYNOPSIS

A strong flow of dry Pacific air is moving over the prairies today, clearing clouds and moderating temperatures.

Temperatures are scheduled to rise to give fine harvest weather in all regions. Afternoon temperatures will be 5 to 10 degrees above normal, ranging from 65 in northern regions to 75 in southern regions.

Edmonton: Clear and warm; wind west 20 mph. This afternoon and west 15 mph. Thursday afternoon, overcast light fog; temperature low tonight and high tomorrow 40 and 70.

Jasper Region: Variable clouds; light winds; little change in temperature low tonight and high tomorrow 40 and 70.

At Municipal Airport

Maximum Tuesday 74
Minimum Tuesday 48
Overcast light fog; temperature low tonight and high tomorrow 40 and 70.

Fatalities Occur At Grande Prairie

Alberta's current polio epidemic centred on the northern community of Grande Prairie today. Four cases of polio and two deaths from the disease were reported from Grande Prairie by provincial health authorities in Edmonton.

Total of ten polio cases and two deaths reported today boost the provincial total to 180 cases and the death toll to 10.

Edmonton had four new cases today.

At Grande Prairie, Dr. A. M. Carleton, doctor there for 27 years, has had at least a 100 cases in which patients have higher fever for several days.

Two women in hospital at present have had temperatures of 103 degrees for four days.

DO NOT RESPOND

In most of these fever cases, they do not respond to penicillin treatment—the fever drops after a few days, but in some, paralysis finally occurs.

All fever cases are kept in isolation in hospital.

Eight such cases have developed paralysis, and two have died. One woman was put in iron lung two days ago.

Tuesday a severe case was placed in an iron lung in the Grande Prairie area.

The ban on gathering of citizens in public places applies to everyone under 30 years of age in the Grande Prairie municipality.

PUBLIC BAN

Dr. J. R. McCrum, of Semtech, acting health officer, told The Bulletin that the ban on public places and other centres in the municipality have been closed as a result of the ban on swimming pools and dance halls have closed.

Local authorities have ordered that schools will not open for the summer.

City Crops Show Big Improvement Nearly One-Quarter Of Wheat Already Reaped

Crops in the Edmonton district are listed as "fair to good" in a crop report issued today by the Alberta department of agriculture.

The report says 24 per cent of the wheat in the area is cut. Fifteen per cent of the oats and 20 per cent of the barley are said to have fallen to reapers.

Only a little of the barley has been threshed up to today, however, and no wheat or oats.

For the rest of the province 75 per cent of the wheat has been cut, 18 per cent of the oats, and 25 per cent of the barley.

Some concern is being felt over the late of the coarse grain crop in those districts where there was ample moisture throughout the year, but the department feels if frost holds off excellent crops may be expected.

Feed prospects in the whole province are said to be "fair to good" while in the district immediately surrounding the city the feed prospects are considered as "good."

Conditions in the dairy industry are encouraging, with butter-fat receipts at creameries holding up well above the receipts at this time last year.

Dairymen do not anticipate a shortage of feed this winter.

Building Boom Continues During Month Of August

Edmonton's building permit totalled \$10,422,341 for the first eight months of this year to establish an all time record.

They are more than \$4,000,000 in excess of the previous 12 months record of \$7,422,341. It is expected the total of 1948 will exceed the \$10,000,000 mark.

During August 555 permits were issued with a value of \$5,503,208. Of this total \$3,483,908 represents housing permits.

The total of housing permits issued this year to date is \$10,421,308.

Handicapped Children Off To Schools

More than 75 blind and deaf Alberta youngsters will be leaving the province this month, to attend schools for the handicapped in other parts of Canada.

First group to leave Edmonton, under escort of a department of education official, will be made up of 30 deaf youngsters bound for the Marley school for the deaf in Montreal. They will leave here on September 10.

On September 20, it is expected 18 blind youngsters will be developed to the Ontario school for the blind at Stratford.

More than 35 deaf children will be attending a school for the deaf in Saskatoon, and 3 few Alberta youngsters are being sent to a similar school in Vancouver.

The provincial government pays costs of transportation, tuition and maintenance for the handicapped youngsters.

Calgary Vet Wins Post

Dr. C. H. Bigland, of Calgary, has been appointed veterinary pathologist with the Alberta department of agriculture, according to an announcement made today by Hon. David Lewis, minister of the department.

Dr. Bigland has been senior veterinary inspector with the federal department of agriculture in Calgary.

He was born in Ontario and graduated from the Calgary Veterinary College in 1924.

Following his graduation he took a course in post graduate work at the University of Toronto.

Dr. Bigland took over his new duties today.

Dr. Anderson Feted On Retirement Here

Dr. A. F. Anderson, superintendent of the Royal Alexandra hospital in Edmonton, has retired after 20 years of service in this office.

His duties were officially terminated at midnight Tuesday. Dr. R. Eakin, who has been serving as assistant superintendent, has been named to succeed Dr. Anderson.

Starting his medical career in Edmonton in 1911, Dr. Anderson was associated to private practice with Drs. Allan, J. F. Brander, M. Hall, and D. B. Leitch.

He was appointed as superintendent at the hospital in 1928. A dinner in honor of the retiring superintendent is to be held by the Royal Alexandra Hospital Board, Friday evening, September 3 in the Macdonald Hotel.

Another dinner in honor of Dr. Anderson was held by the medical staff of the hospital Tuesday evening in the Macdonald at which he was presented with a set of matched travelling bags.

There are lots of pictures in it, too.

It's a Pine Cone Turkey For The Kiddies Today

Thanksgiving Day is still more than a month away, but today you kiddies, who have to stay home because of the poliomyelitis ban on everyone under 16 years, will learn how to make a Pine Cone Turkey.

This series of "keep-busy" ideas for the youngsters is made available through The Bulletin and is written by Miss Sydney Fleet, supervisor of handicrafts for the Recreation Commission.

Here's how you make a Pine Cone Turkey: First, get a pine cone off one of the pine trees in your neighborhood. Ask Dad, or someone else who smokes a pipe, for one of his pipe cleaners, get a pair of scissors and you're ready to begin.

Take one of the halves and bend the tip so it looks like a little cane. Now bend it around once more so that you can have a round flat knob on the end of the pipe cleaner.

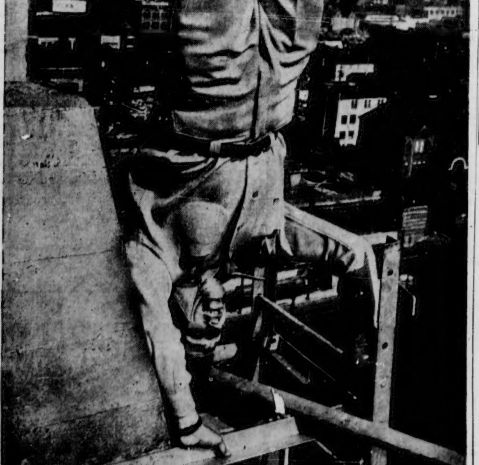

This is going to be the turkey's head. Push the neck (the straight end) into the rounded end of the pine cone and bend it into the shape of a turkey's neck.

BEND AGAIN Take part of the other half of pipe cleaner and bend it first so it looks like a cane, then around once again so that you have a small knob on the end of the pipe cleaner. This is going to be the foot as soon as we finish it.

Bend the straight piece up so that the foot (knob) is flat on the table and the leg (the straight piece) is straight up. Push the leg into the bottom of the pine cone. Make the other leg the same way as the first and push it, too, into the bottom of the pine cone.

Well, what do you know, the Pine Cone Turkey is finished already. Maybe Mom would like you to make some of these turkeys to use as place cards for Thanksgiving dinner.

By the way, we read a good book today, called Mr. Poppet's Penguin. I'm sure you would like it, and there are lots of pictures in it, too.

"HEADS UP BELOW!" says the Great Francisco as he signals arrival of the circus by stunting on the girders atop a Vancouver building, 18 stories above street level. Francisco does the "10 storey buggy pole" act at the Pacific National Exhibition.

Industrial Advantages Heralded by Board Here

Alberta will continue to advertise its advantages to industrialists in the advance tendered Tuesday to the provincial government by the Industrial Development board is followed.

The industrial board meeting was attended by provincial government officials, and by civic and municipal officers from all Alberta cities.

In the course of its two-day meeting members of the board discussed possible links between industrial and tourist advertising. It will be suggested to the Alberta government that a representative should be appointed to attend the meeting of the Mid-Continent Council of Development Agencies, to be held in Jefferson City, Mo., on December 16 and 17.

The Mid-Continent Council, comprised of nearly all the central United States and Alberta, Saskatchewan and Manitoba was formed a year ago for the discussion of mutual industrial development programs.

A HARVEST SONG is sung in the land as the fields of golden grain go down before the knives of thousands of combines and binders. This photo was taken under late summer skies by Bulletin Staff Photographer Eric Bland on the farm of Jacques Hebert, South Edmonton.

Assault Charge Is Remanded

Kenneth Miller, no fixed address, was remanded on his own recognizance following a police

court appearance today on a charge of assault with intent to rob.

He entered no plea to the charge and was remanded to September 9.

Three members of the city narcotics squad arrested Miller last week after Nick Bazaraba, City

Rooms, arrested them on the street and told them he was assaulted by two men and an attempt made to rob him.

Oranologists believe a few birds can come to three.

JOHNSTONE WALKER

Jasper Avenue Junk Yard

For nearly a year no street cars have run from Jasper and 109th into the west end. And yet Jasper avenue west of 109th still looks like a particularly untidy junk yard.

From 121st down to 111th, the rails are uprooted and still lie rusting along the centre of the street. Some of the ties have been pulled out. Others, covered with grass and half buried in dirt, still stick out into the roadway as a menace to automobile tires.

And over all this delightful picture is a growth of weeds and coarse grass. From 111th to 109th, the grass has been dug out but the rails remain. And the first thing the westbound visitor sees after passing under the subway is a mess of earth clods and rusty rails.

All the cross intersections on Jasper from 109th to 121st are planks divided by weathervaned rails.

And this is what purports to be the main street of Edmonton, the fastest growing city in North America.

It is a spectacle that would disgrace a deserted mining town in Nevada. It is a spectacle that should amuse or disgust, or both, every tourist that Edmonton is trying so hard to attract.

Martyrdom for Henry Wallace

It is something of a pity that the disappearance of Henry Wallace from American public life should not have been effected quietly at the polls and without the violent disturbances that have marked his platform appearances in the South.

There is, of course, a very emphatic and unmistakable tone of rejection inherent in a barrage of bad eggs and overripe tomatoes.

It would be difficult for Mr. Wallace to imagine that he was the darling of the masses when his attempts to speak were drowned out in boos and catcalls.

But while the American public, particularly in the South, thus makes its opinion of Mr. Wallace vociferously and plainly known, it also makes something of a martyr of the anti-communist gentleman.

And it is a matter of elementary psy-

There is no reason on earth why this unsightly mess should not have been cleaned up six months ago. There is no reason why Jasper Avenue should not be completely paved from one end to the other.

This gross neglect is simply an invitation for tourists to stay away.

But even more important still is the effect on the people of Edmonton themselves.

There is today in this city a fine momentum of progress. Population growth, new industries and the rapid development of valuable natural resources have given Edmonton residents and taxpayers a life so that everyone feels pride and confidence in the future of the city.

And then one looks at ugly, neglected spots like this right on our front doorstep and wonders how Edmonton can ever amount to much.

There is something wrong with a civic administration that permits these things to happen.

It will be a happy day for Edmonton when the projected civic survey becomes a reality and the factors that operate against the city's progress are weeded out.

PICNIC

chology that wherever a man, however blatant his errors, appears to be persecuted, there will be thousands of half-baked sentimentalists willing to follow him to death, not through the virtue of his doctrine, but through the magic of his martyrdom.

For instance, two killers named Sacho and Vanzetti were practically canonized in the United States at one time because it suited the interests of leftist groups to insist that they were unjustly executed. And for years the Reds almost worked miracles at the tomb.

If it was possible to enrol two murderers among the best certainly saint-hood is not a remote hope for Henry Wallace.

It is a horrid thought. Mr. Wallace as a visionary is bad enough. As a martyr he would be insufferable.

So long as a new settler is unable to speak the language of his new country, he is going to be a green many of the associations that normally would be available to him. Certainly, without this knowledge, he can never be completely absorbed into the national life of Canada.

Edmonton's plan commends itself so highly on its obvious merits, that the provincial department of education could very profitably extend it to apply in a great many centres throughout Alberta.

In other words, the plan to teach English to newcomers, instead of being merely a city project, could very well be expanded into a provincial project.

LETTERS TO THE EDITOR

never realized until the people involved fall in love.

I often wonder if parents know that I know from listening to stories or could hear the words "If my mother or somebody had only warned me, I would be a doctor."

If parents will not handle the child's sexual curiosity and it is a mixed class because of Frankenstein's matter between children and parents. I believe it would be discussed between them anyway, but individuals between boys and girls, I believe would be better because some anti-naturalism may be present to some extent. I don't see any sense in making it worse which would only have a tendency to close up the child's mind.

Also there would be more freedom in asking questions in class of girls only and boys only. I agree with Mr. Weir on this because Frankenstein's necessary so that the teacher realizes that the child understands perfectly and doesn't go away with wrong impressions.

Also there would be more freedom in asking questions in class of girls only and boys only. I agree with Mr. Weir on this because Frankenstein's necessary so that the teacher realizes that the child understands perfectly and doesn't go away with wrong impressions.

Maritime Strike Set For Thursday

U.S. Railroads Prepare to Clamp Ban on Freight For West Coast

WASHINGTON, Sept. 1.—(AP)—The railroads of the United States today prepared to clamp an embargo on virtually all freight destined for shipment from west coast American ports if a maritime work stoppage develops there tomorrow as threatened.

Arthur H. Gass, chairman of the Independent Marine Firemen and Car Service division of the Association of American Railroads, said the embargo is a protective measure to prevent freight cars being tied up at western ports in case of a maritime work stoppage. If the work stoppage does not occur the embargo will be withdrawn at once he said.

ELEVENTH-HOUR HOPE
In San Francisco negotiations were called together in an eleventh-hour hope of averting a tie-up on Pacific coast shipping at midnight tonight. Prospects of reaching settlement in time to avoid a work stoppage appeared slim. The five unions have agreed that "all or none" will sign.

Called together today were negotiators for the Waterfront Employers' Association and the Longshoremen and Warehousemen's Union (CIO). The Marine Cooks and Stewards' Association (AFL) which is in a jurisdictional struggle with the American Radio Association (CIO). The CIO Union has joined the "all-or-none" pledge with other waterfront unions. The AFL radio men continue to represent the Pacific coast strikes if the CIO union receives consent.

Injured In Fall

CALGARY, Sept. 1.—(CP)—William Leake of Ardara, Man., was admitted to hospital Tuesday suffering from a possible fracture skull received when he fell from a three-story window of the Empress hotel. His condition is said serious.

THIS FIELDER'S CATCH TOO HOT

ATHERSTONE, Warwick, England, Sept. 1.—(AP)—Cricketeer Peter Plumb fielded a red-hot catch. The ball hit a box of matches in his pocket and started a fire. He had to take off his pants to cool off.

Quebec Tories' Support Is 'Open'

MONTREAL, Sept. 1.—(CP)—Progressive Conservatives in Quebec Province have not promised support to any candidate who may be nominated for party leadership at Ottawa, Ivan Schorin, party leader in Quebec said yesterday.

He made this statement in the wake of yesterday's caucus here, attended by some 100 delegates. A press interview, Mr. Schorin said, should precede the party convention in Quebec. He said the party leadership being sought by John Bracken, Mr. Drew would carry the convention as he would carry the next general election.

BUILDING INCREASES

NEW WESTMINSTER, B.C.—(CP)—A sharp increase in value in July building permits here is largely due to issuance of a permit for the erection of a new junior high school. Cost of the school is estimated at \$200,000.

OUT OF FAVOR in Moscow in this noted Soviet biologist, L. A. Orbell. Soviet Academy of Sciences has replaced him with a man more in sympathy with prevailing Russian beliefs.

Lawyer Attacks Lie Detector

MONTREAL, Sept. 1.—(CP)—Devices such as the lie detector are "against individual liberty," Meunier, 60-year-old barrister of the bar in Paris, said last night in addressing the 30th annual Canadian Bar Association convention. Mr. Ribet said if a man pleads guilty he will do so "without any such devices."

Conroy Criticizes New Federal Labor Code

OTTAWA, Sept. 1.—(CP)—The federal labor code was denounced in a statement issued as workers in large group of key industries came under new legislation bargaining and industrial disputes legislation adopted in the code at the last session of parliament.

Mr. Conroy's criticism was expressed in a statement issued as workers in large group of key industries came under new legislation bargaining and industrial disputes legislation adopted in the code at the last session of parliament.

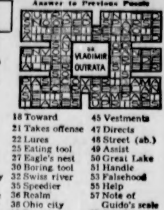

The measure, which supplants wartime labor regulations, covers industries under federal jurisdiction such as railways, shipping, communications, aviation and radio and interprovincial enterprises generally.

One of its chief features is the introduction of procedure preceding strikes or lockouts. Mr. Conroy said the code was "unnecessarily restricted."

Under it, he declared, the Dominion lacks authority to deal with disputes which become of national importance. (The Congress had asked that the scope of the code include such "national" industries as coal, steel and meat-packing.)

Vancouver Whips Legion With Early Hitting Power

By Dick Beddoes

Vancouver 6, Edmonton 3
Great clutch hitting manifested one big inning for Vancouver Narrows at Kingsway Park Tuesday night, and carried them past Edmonton Legionnaires 6-3 in the first game of the far western senior men's football playoffs.

The Narrows did best around the bushes very long before unleashing their slugging attack. It was in the third inning last evening that they got six hits and five runs off Legion pitcher Bill Wood and sewed up the ball game.

Legionnaires never fully recovered from the battering, although they were a fighting club from there till the last out in the ninth.

With one out in the third Harry Vanover struck out and the danger seemed to have passed for the visitors.

CAME TO LIFE
But Vancouver came to life at that point, and in swift succession Her Highness, Her Winspire, Duns and Jack Chessie lagged Wood for solid hits. The winning club went for three bases and drove in two runs.

By the time McLean came up for his second turn at bat in the frame Wood had also allowed a walk and a fielder's choice. Five runs had scored and Vancouver led 6-0.

Earlier, the Narrows had taken a 2-0 lead in the second inning on a walk, a fielder's choice, and Chessie's single to right field.

Legionnaires battled back with a single run in the fourth. Colin Miller led in the second inning on a walk, a fielder's choice, and Chessie's single to right field.

Legionnaires battled back with a single run in the fourth. Colin Miller led in the second inning on a walk, a fielder's choice, and Chessie's single to right field.

IT'S WET GOING AS Vancouver yachtsmen Phil and Sid Miller try to get the most out of their Star boat. The hulling catamaran was sacrificed to third and driven south by the rain.

Horse Hill Makes Baseball Finals

Horse Hill whitewashed CYO 5-0 at Clarke Stadium Tuesday night to advance to the final round of the intermediate baseball league playoffs against Texaco Oilers.

Warren Gauthier pitched a fine game for the Hillers. Over the six inning route he allowed three hits and struck out the half dozen batters.

Horse Hill scored once in the first inning and then uncorked a four-run rally in the fourth. Hits by Julie Brackman, Bud Edgar, Bill Clark and Chuck Oliver, plus a sacrifice fly by Edgar, contributed handsomely to the upturn.

The finals are scheduled to commence Sunday at Clarke Stadium with a doubleheader. First game begins at 1:30 p.m.

Texaco finished in second place in the final standings and Horse Hill wound up in fourth. The two teams will meet in the first round of the playoffs.

The Oilers are slated to play the Peter McKay trophy. Bill Baird and Ken Kennedy are likely starting pitchers for Texaco on Sunday, and they will be opposed by Mike Mack and Bud Edgar.

Horse Hill's lineup for the first game will be: R. E. Hone, Mike Mack, Bud Edgar, Bill Clark, Chuck Oliver, Julie Brackman, and Warren Gauthier.

Texaco's lineup for the first game will be: R. E. Hone, Mike Mack, Bud Edgar, Bill Clark, Chuck Oliver, Julie Brackman, and Warren Gauthier.

BASEBALL TEAM GOES HITLESS, BUT WINS 7-3

WELLSVILLE, N.Y., Sept. 1. (AP)—The league-leading Lockport Reds of the Class E Pony League went hitless in an inning game with the Wellsville Red Sox Tuesday night and won 7-3.

The Reds scored three runs in the third on five walks and an error. The Sox demolished the game in the seventh 3-0.

Brooks Find Cubs In Vicious Mood

NEW YORK, Sept. 1. (CP)—If the leading Brooklyn Dodgers figured they would have a soft touch in their National League series with the collarite Chicago Cubs, well, they can forget it.

Making their swing around the Western end of the circuit, the Brooklyn Dodgers ran into two tough Cub pitchers and dropped both ends of doubleheader 5-0 and 7-2. The double loss cut the Dodgers' lead from 14 games over the runner-up Boston Braves to only two percentage points as Boston won its game against Cincinnati.

FACES 27 BATTERS
Hank Borowy faced only 27 batters in blanking the Dodgers on the eighth day of a solo drive from New York when the Durocher team scored three runs in the second inning, another in the third and three more in the fourth.

In the nightcap, Doyle Lade coasted home as the Cubs capitalized to the utmost on the wildness of Ralph Branca and Hank Borowy to score three runs in the second inning, another in the third and three more in the fourth.

At Cincinnati, Boston Braves on the eighth day of a solo drive from New York when the Durocher team scored three runs in the second inning, another in the third and three more in the fourth.

By STAN MOHR, Editor

"Renfrew Like Yankee Stadium"

Midweek meanderings and what's this we hear about the Gimmen Johnsons dropping upwards of 600 claims on their recent Bobby Locke-Stan Leonard venture? ... Eddie (Scotty) Thompson, the pigeon fancier who is holidaying in Manitoba, writes in interesting vein from Winnipeg of baseball and the Sport of Kings. "I saw a ball game between Brandon and Winnipeg Reos. Brandon had four colored players and showed plenty of class but the Reos didn't have it. The ball park made Renfrew look like Yankee Stadium." ... Of the thoroughbred punter Thompson observed: "The feature race (Saturday) brought together Air Cadet and Fort Garry. Air Cadet ran a disappointing race but Fort Garry did alright to come second after his long layoff. Amsterson staged a garrison finish to win by a nose." ... Thompson thinks any complete model of the fashion of Polo Park in Winnipeg. "Merv Hardy, the infielder who recently turned up at Kingsway with the touring Yellowknife fast squad, is a former Hound of Notre Dame." ... Something of an all round athlete Hardie also excelled at hockey and football while at the Wilcox, Sask., school.

Bob Borland, president-elect of the Alberta Golf Association, is in the city on business from Calgary for a few days. Right now he is much interested in the Alberta Open, scheduled for the week-end.

Major Leagues Coming?

Reports have it that a team of major league baseball stars will head for the west to play a series of close play, probably so engrossed in the Big Four playoffs, profess complete ignorance of such an exhibition to this part of the country are such headlines as Ewell Blackwell, Hank Sauer, Luke Appling, Richie Ashburn and pudgy Pat Seaver. ... What say you, Ducey and Beatty? ... The \$64 question: whatever happened that Flyers lost out to Spokane in the duel to get Ron Piekell for netminding duties? It's a question for the tourney, with the Washingtons came as a great surprise to certain Exhibition association brass hats. ... Now that Stan Leonard has asked to be included out of the incoming Alberta Open, how much more can he expect to win to win himself the \$500 top prize. ... The Highlands pro, Vancouver's Benny Colk (third last year) and Pat Fletcher, if he comes on from Saskatoon for the tourney, should finish 1-2-3 among the putt-for-throw brigade.

Try this one for size: How is it possible to win a hall game without ever throwing a ball? (No, there was no forfeit).

Paging Bob Ripley

We have learned with regret that among the victims of the war was Billy Roy, former Manitoba junior golf champion who played in the Canadian junior tournament at Mayfair Golf and Country club two years ago. ... Could this be: one story going the rounds has it that "Legs" Fraser, stage-smoking netminder who clown his way to the 1948 Allan Cup finals with Ottawa Senators (by the way, who did the easterners hook up with in the wind-up, if we didn't know) will take over from Al Holm in the Flyer cage. ... One for Ripley, and no charge, either: Ken McAuley is playing third base for Saskatoon Merchants, senior men's football champions of Saskatchewan. At the same time his wife, Millie, handles the hot corner chores for Saskatoon Ramblers, senior ladies' football champions of the province. ... Pagan Star was beaten nine lengths while running eighth in the \$20,000 Lookout race at Seattle last Sunday. ... The Alberta Derby winner of 1944 failed to stick in the run through the stretch. ... LeRoy Goldsworthy, Jasper Park golf professional, paid a flying trip to Edmonton earlier in the week, retracing his steps the same day to the beautiful mountain resort.

If a junior team operates at Wetaskiwin this coming pug season it will be called Colkies instead of Colkies as was the case last season. Incidentally, both goalie Stu Hendry and defenceman Al Purvis of the 1947-48 team will take in the Chicago Black Hawk trout camp at Moose Jaw.

Grid Pep-Talks Shock Tough Newsy Lalonde

MONTREAL, Sept. 1. (CP)—When old Newsy Lalonde managed Sticks, Shakes in professional hockey's younger days, the boys used to think him something of a toughie. But Newsy figures today's football coaches, by the way they blast their grid charges, make him look like a Mitiquet.

The veteran, looking fit under a gold-link tank, went to the Alouette-Hamilton Tigers football game here Thursday night to see Pinks Lewis, the Hamilton trainer who has the same expression for the same reason as Lalonde when he was managing the Saskatoon Sheiks.

"They used to say I was a tough manager in hockey," said Newsy. "And at that I was a bit rough in talking to my teams. But after listening to Frank Flick who comb those Tigers at half-time I guess I was just a slay. ... my goodness, what that man said!"

Flick isn't alone in the hard-boiled language business. Elmer (Montreal Herald) Ferguson says that had Newsy been around the Alouette comb at half-time the Alouettes would have been farther impressed by the lurid quality of football pep-oratory. The

both London and Westbury, N.Y., bowed to E. J. Rogers, Sr. of Oklahoma City, one up. Keeping the parade of past champions to the shovers busy, Buffalo, 1946 United States winner from Dedham, Mass. was ousted by the winner of Lincoln, Neb. one up.

Stranahan had a time of it when he was champion of the world. He was the first of the night fall, a 4-3-3 victim of Richard L. (Buffalo, 20-year-old) and Ted Bishop, 1st playing in the 1st round. The 1937 British amateur king who has homes in

McEwen Crowned Senior Golf Champ

OTTAWA, Sept. 1. (CP)—A. R. McEwen of Montreal's Kanawak Club won the Shaughnessy Cup of the Canadian Senior Golf Association with a 160 score in the 36-hole medal play matches Monday and Tuesday.

The steady-driving McEwen carded 71-83 on the Royal Ontario Golf Club course. He was playing his first year of senior competition after a field of 19-20 years of them in their 60s.

A cold northwest wind chilled many in the second day of their 20th annual reunion. All are 55 years of age or more.

Most of them indulged happily over the rolling fairways to complete the 18-hole round, but a few crawled into warm beds for an afternoon nap.

C. F. Laing of the Windsor, Ont., Essex club placed second in the medal play with 77-90-163 to win the Nesbit Cup.

usually quiet Hay Haman shed his coat and tore into the boys. About Newsy himself. He plays golf every day and shows a good game, but admits Lou Dandurand, Alouettes' president, can give him such a battle that he's been beaten four times instead of opponents.

These were highlights of the second straight day's matches marathon over the 4,617-yard par-70 Memphis Country Club course. Stranahan for the second straight day played scrambling cards. He made a hole under pressure pulled him through.

The main game, he last hole all even. On the edge of the green the Canadian stroked inches short. Stranahan leily nudged his stand-out home. A birdie three that decided the match.

Stettler is Center Of Progressive Area

By Tommy Graham

STETTLER, Sept. 1.—Stettler district is situated in the "Heart of Alberta" and for location and fertility of soil commands the attention of the agricultural world.

BRIDGE

False-Card Brings Home the Contract

By WILLIAM E. MCKENNEY
I have often said that the best bridge in the country is played in the restaurants in New York. The two sessions of a tournament, after the evening session, the game will drop in at a restaurant, and of course bridge hands are the topic of conversation.

At Trader Tom's steak house in New York the other night we were talking about false-card plays. We all agreed that the best of the today's hand should not be fooled.

anyone. It was further agreed that game should not be made either in a suit or in trump, but nevertheless it is the type of hand on which a game should be bid. West opened the eighth of diamonds and East won with the ace. South played the queen. West, in mind that North and South had both spades and hearts, the diamond opening looked good to East, and he was anxious to establish a suit while he still had the ace of clubs for re-entry. There was a possibility that he had the heart suit stopped, and being wild in spades, he hoped that his partner had that suit stopped.

With all this on his mind, he let the queen of diamonds go. East came back with the seven of diamonds. Of course, declarer won this trick with the king, ran five spades, four hearts and the jack of diamonds, and made five no trump. East should have realized that declarer held the king-queen-jack of diamonds. Otherwise his partner would not have opened the diamond eight. It was easy to count that the eight was not fourth-best. Therefore it must have been the top of nothing, which meant that the three missing honors were in the South hand.

If he had correctly read South for the king and jack of diamonds, and recalled South's heart bid, East would have known that he should lead back the ace of clubs. That would have brought a high club from West, which would have been continued, and, before South got in the lead, East and West would have reached four clubs and the jack of diamonds, setting the contract one trick.

The direction of wind over water will be determined by the shapes of the waves and the shadows they cast.

School Opening Delayed in North

DAWSON CREEK, B.C., Sept. 1.—School opening has been delayed because of the polo epidemic. South Peace schools will remain closed for two more weeks, more if necessary. North Peace for three weeks.

All public meetings and demonstration stations days connected with the Department of Agriculture and the Youth Training schools throughout the Peace River District have been cancelled in July. The Dawson Creek swimming pool also had been closed to help prevent the spread of the disease.

This delay makes it more certain that the new high school dormitories for rural students will be completed. A priority system has been set up for the accommodation of students.

Those resident in this school district wishing to attend Grade XII will be given top priority. Grades XI, X and IX follow. Students living outside of school district No. 30 will be settled on the same grade basis.

Cutting General At Hardisty Now

HARDISTY, Sept. 1.—Grain cutting is general in this district now. With the late summer rains a big improvement is seen in the crops. Native chick cherries and high bush cranberries are at their best. The year has seen the largest crop of wild fruit in many years. Precipitation has been taken here for the spread of polo but up to date there has been no cases of it.

Viking Schools Re-Open Sept. 7

VIKING, Sept. 1.—Viking schools will open Sept. 7, one week late, chiefly because of repairs to the school not being finished and the polo epidemic in the province. There are no known polo cases in this district.

Cutting is well under way in the district. Wheat, the straw is short due to the drought, many of the fields are yielding much better than expected. The local creamery reports that more farmers are milking cows this year.

The town was incorporated in November, 1906 and was named after Carl Stettler, an American of Swiss descent, who brought some of the first settlers into the area. Stettler, also built the town's first hotel, which he called the National, and which was located on the present site of the new and ultra modern \$350,000 Stettler hotel.

Considerable building of homes and business structures is presently going on and the business centre of the town is expanding. Population of Stettler at the last census was 2,229 but, folk claim, it is now in neighborhood of 2,300. Stettler has just about every type of business firm.

Considerable building of homes and business structures is presently going on and the business centre of the town is expanding. Population of Stettler at the last census was 2,229 but, folk claim, it is now in neighborhood of 2,300. Stettler has just about every type of business firm.

VIKING, Sept. 1.—Viking library has been named one of the best three small town libraries in Alberta. The others two are Ponoka and Wainwright.

Gunners Capture Red Deer Title

RED DEER, Sept. 1.—78th Battery Gunners won the Red Deer city men's football title on Sunday when they turned in a 3-2 win over Advance Electric Motors in the decisive game in the final play-off.

First game of the series ended in a 4-4 draw and the Gunners grabbed the next two by scores of 16-4 and 10-0. It was a best of five series and in spite of the 78th taking three straight games fans saw plenty of interesting ball. The Gunners were city champions last year also.

Joe Sherin had a good afternoon with the stick, smashing out a punter and a pair of toe-baggers. Fiddling of Wes Wagar, centre, garden man with Advance, was a feature of the contest. He snared several goals but his hands on a couple of tongs ones that easily could have been runs. Herd, the winning buffer, fanned three men and walked four. Blackstaff did not whiff any and only passed a couple.

Settlers Reach Millet District

MILLET, Sept. 1.—Several families of the Millet district were at the CPR station on Sunday evening August 31st to welcome relatives of those who had come to Canada from war torn Europe. Robert Flick met a young man, Jacob Flick, from Westland, Germany, who is a member of his father's family. He will stay at the Flick farm.

Mr. and Mrs. Arnold Huff and their two children also from Germany, who are related to G. Lauffer arrived on Saturday evening and will live on the Lauffer farm east of the village.

Mr. Otto Lewandowski with his five children are from Poland. They are relatives of Mrs. Kristian Jensen, and will make their home at the K. Jensen's for the present.

'Black Gold' Will Soon Start Pouring Through This Line to Edmonton

TWENTY-SIX MILES of eight-inch steel pipe are being laid by Sparling-Davis Company, for Imperial Oil, from Nisku oil tanks to Edmonton refinery as Imperial continues to step up production at newly-opened refinery.

WORKMEN GUIDE PIPE to final resting place just prior to forging another link in oil carrier. When Nisku to Edmonton line is completed, Imperial will have a total of 51 miles of pipe connecting its refinery with Nisku and the main Leduc and Woodbend oil fields. Completion of this latest task is forecast for early in October, as line has already reached a spot between Edlerdale and Edmonton with less than 12 miles to go. With completion of this oil line, daily production at refinery is expected to jump considerably, Imperial Oil officials predict.

ANOTHER LINK IS FORGED as workmen place pipe in ground to bring line another step nearer refinery. Line runs northeast to the refinery, three miles east of the city limits. The ditcher has worked as far north as the South Cooking Lake trail while crews behind are welding pipe, wrapping it in tar and burying it an average of four feet below the surface. As soon as line is completed entire production from Leduc fields will be delivered to refinery by pipe.

State Rites Planned For Red General

LONDON, Sept. 1.—(BUP)—Radio Moscow announced elaborate plans today for the state funeral of Col. Gen. Andrei A. Zhdanov, secretary of the Communist party central committee, whose death from a heart ailment was disclosed yesterday. He was 52 years old.

Zhdanov was one of the four top men in the Soviet hierarchy and a leading contender with Soviet Foreign Minister V. M. Molotov for the mantle of power won by Generalissimo Josef Stalin.

Western experts agreed that Zhdanov's death has removed the western powers' most bitter enemy in Russia and the one man above all others who is leading the drive for Soviet domination of the world.

The Moscow announcement said Zhdanov died yesterday afternoon after a serious illness. The length of his illness was not stated, although it was known to have been in good health a month ago.

FIVE TESTIFY
A committee of five doctors testified he died of high blood pressure, hardening of the arteries and heart disease.

Moscow said a four-man committee of high Communist officials had been appointed to make Zhdanov's funeral arrangements. The body will lie in state in the Hall of Columns of the House of Trade Unions in Moscow, with the public to be admitted after 4 p.m. today. The funeral will be held in Red Square at 5 p.m. tomorrow.

Zhdanov was one of the youngest of the top Soviet leaders who directed Russia's war effort. He was a member of the all-powerful Politburo and the leading exponent of the Marxist-Lenin theory. His speeches were studied by Communist groups in the U.S.

Western observers believed that Zhdanov and Molotov headed rival political groups within the Politburo and that his death now has made Molotov the leading contender for Stalin's post.

RIVAL GROUPS
Zhdanov was considered Russia's highest authority on ideology. He was known to be tireless in his pursuit of the theory that the Bolshevik revolution of 1917 could not be achieved without domination, thus eliminating possible counterattacks from remaining capitalist groups.

Making the contribution, Mayor Stanley complimented the Mayor Council on the work it was doing to promote safety in industry and on the streets. He said the council of the City of Edmonton indicated the confidence placed in the work of the Safety Council.

The council to take over the feast from the Lord to take over the feast, charging him with insanity. He told police he had been "sent from the Lord to take over the feast" at 2 p.m. today, at which time city street cars would begin to run backwards, he claimed.

FLOODS TO BLAME

Apple Caravan Is Off, Until Next Year Anyway

The apple caravan, scheduled to leave Vancouver for Winnipeg early in September, has been cancelled.

The caravan was being organized by the Trans-Canada Highway System Association (Yellowhead route) to prove the feasibility of the Yellowhead Pass as a link in the Trans-Canada highway system.

Sentence Due September 9 On 3 Thefts

Five auto break-ins, during the space of three hours, which netted clothing and other goods to the value of \$100 through Alexander Twiss, of Hobbema, in city police court Tuesday. He pleaded guilty to three charges of theft, and one of retaining stolen property.

Twiss will be sentenced September 9 on all charges.

Twiss was a 34-year-old shoe store clerk who stole about \$300 worth of goods from auto parked in downtown Edmonton between 11 p.m. Monday and 2 a.m. Tuesday.

Two cameras and a pair of field glasses were among the loot. He tried one of the cameras, valued at about \$20, for a bottle of wine after the theft.

A flash-light, a coat which police recovered in his possession have not yet been reported missing by the owners. Police request persons who may be able to identify the goods to call at the city police detective office.

Safety Council Gets Grant

Mayor H. D. Anlay sent the two-week membership campaign of the Edmonton Safety Council off to a "flying start" Wednesday.

In a 3rd of ceremony in his office, the mayor presented a cheque for \$250 to William Hawfield, membership chairman of the Safety Council.

Making the contribution, Mayor Stanley complimented the Mayor Council on the work it was doing to promote safety in industry and on the streets. He said the council of the City of Edmonton indicated the confidence placed in the work of the Safety Council.

The council to take over the feast from the Lord to take over the feast, charging him with insanity. He told police he had been "sent from the Lord to take over the feast" at 2 p.m. today, at which time city street cars would begin to run backwards, he claimed.

B.C. Police Flying Wiegner to North

Ohio Salesman to Face Murder Charge There

VICTORIA, Sept. 1.—(CP)—Under police escort, Gustave Wiegner, 24, of Kimball, Neb., arrived by plane here today to face a murder charge in the Alaska highway slaying of John McComas, 52, of Dayton, O.

"I'll be glad to get this over with," Wiegner said last night as he started back to Canada. He was in the custody of Inspector Carl Leduc of the British Columbia provincial police and Kimball County Attorney Kenneth Fritzler.

Louise McComas, 13-year-old daughter of McComas, also was taken back to Canada by the officers.

Wiegner says he shot McComas accidentally while shooting at a squirrel during the Alaska trip. He and the girl said they became frightened after the shooting and fled. They were taken into custody in Burnsville, Neb.

Wiegner waived extradition to Canada where a murder warrant has been issued.

Police said the inquiry into McComas' death also would be reopened.

The inquest, adjourned Monday night at Fort St. John, will require United States witnesses including Louise McComas, the dead man's 13-year-old daughter.

Louise returned to Kimball with Wiegner, who said he accidentally shot McComas while hunting squirrels in the northern wilds. The two were touring the Alaska highway.

Red Deer Student Wins High U.S. Honor

Eoin L. Whitney of Red Deer, Alta., and a graduate of the University of Alberta, has been awarded the Putnam Prize Scholarship of \$1,500 to Harvard University, it was announced today.

The Putnam Scholarship is open to mathematical students in North America. Mr. Whitney was among the first five competitors for the 1947 award.

Son of R. L. Whitney of Red Deer, he now is a Research Fellow at the California Institute of Technology at Pasadena.

He is one of a group of five workers who are undertaking the editing of the mathematical papers of the late Professor Harry Bateman.

St. Andrew's Planning New \$25,000 Church

Final decision on construction of a new church for the congregation of St. Andrew's Presbyterian will be made at a meeting tonight.

The present structure has a seating capacity of 165, but is reported the congregation now numbers 275, an increase of 75 in the past year.

The minister, Rev. J. Gordon Trower, said, "The basement facilities are totally inadequate." Sum of \$25,000 towards the total estimated \$40,000 cost of the new church has been allocated to the project by the Board of Administration of the Presbyterian Church in Canada in the form of a loan from the Advance for Christ and Peace Thank Offering Fund.

Site for the new church has been selected and purchased by the congregation at 87 street and 118 avenue.

The Board of Managers, under the chairmanship of Jack Stewart, has set up a financial program which asks an average contribution of \$10 a year from each congregation member, to complete financing of the project.

Gyros Plan Carnival September 6

Combined Gyro Club and War Services Council Carnival will be held at next week, September 6 to 11 inclusive, according to an announcement made at the meeting of the Gyro Club Tuesday.

The carnival is to be held at the corner of 87 street and 118 avenue.

Colored motion pictures of the Royal Winter Fair held in Toronto last year, were shown at the meeting by the Extension Department of the University of Alberta.

Pat International president of Gyro Air Williams of Calgary, was guest at the meeting. President Wes Van Dusen presided.

South Side Kiwanis Hear Police Report

Polymyellitis, dread disease that has now reached mild epidemic proportions in Alberta, was discussed by Edmonton Medical Health Officer Dr. G. M. Little in an address to the South Side Kiwanis Club Tuesday.

Little outlined the members of the prospects and problems facing the medical profession in combating the disease, and progress made in treatment. He also advised the members of steps to be taken to reduce possibility of catching the disease.

Club president Norman McElbain presided.

Canadian Polish Congress To Meet

MONTREAL, Sept. 1.—(CP)—The Canadian Polish Congress will hold its annual meeting here next week-end, it was announced last night. Many subjects for discussion will be the "Care of Polish migrants." Representatives of 10,000 Polish-Canadians will attend.

Army to Get New Serge 'Walking Out'

New uniforms for Canadian Army personnel can be expected early in 1945, as Army headquarters spokesman said today.

Tenders have been asked for \$60,000 yards of drab serge, similar in quality to the uniforms worn by members of the RCAF.

All army personnel, including officers, will wear the new uniform, the spokesman said. It will be of conventional design and will be more of "walking out" dress than a "fighting uniform."

The "walking out" uniform during the war included khaki trousers and jacket with open collar and belt.

Along with the battleship which the Canadian Army wore in the Second World War, the new uniform will be issued free to soldiers and non-commissioned officers. Commissioned officers will receive a clothing allowance and buy the uniform on repayment.

Minor Thefts Reported Here

Minor thefts reported to police overnight deprived Edmonton residents of an auto blanket, a quantity of bedding, three pieces of luggage and a circular buzz saw.

Miss K. Wilson, 10471 111 street, reported the theft of an auto blanket from her parked auto Monday while she was sleeping from a room in the home of John J. Cummings, 11247 97 street was reported. Stanley Kirk, No. 38 U.S. Hospital base complained of the theft of three pieces of luggage from a hallway at that address.

The buzz saw was stolen from a light delivery truck belonging to George M. 523 112 Avenue, Tuesday.

Russ Planes Only Fly West China

Secret Government Order Seen - Appasement to Soviet

NANKING, Sept. 1.—(AP)—The Chinese government has forbidden all foreign aircraft—except Russian—from operating in its far-west provinces, it was learned today.

The government's secret order was interpreted in some quarters as an appeasement to Moscow. It was the United States minister, Lewis Clark, whose embassy plane was grounded by defense ministry officials at Lanchow while en route to inspect the American consulate at Ithwa, in Sinking province.

Soviet planes fly freely over Sinking province under a 19-year air-lift agreement with China. On Nanking official said, however, the Chinese government already has given Moscow formal notification of its intention to terminate the "monopoly" pact when its original term expires on September 8, 1949.

Sources at the foreign office confirmed the order barring foreign aircraft from flying west of Lanchow. They denied, however, any knowledge of the reasons for the action, apparently taken by the defense ministry under instructions from China's "highest authority."

Three Children Perish In Fire

HAZLETON, B.C., Sept. 1.—(CP)—Three children, one a baby, perished yesterday when fire swept their cabin home from their mother and three young brothers and sisters escaped as flames licked their beds.

The blaze, which started when the mother lit a cigarette in the kitchen stove, mushroomed and soon engulfed the two-story structure. Dead at Dorothy 12, Gordon, 10, and Nancy 13 years, children of the father and Mrs. David Pratt. The father, a logger, was working at a camp 12 miles away when the fire flared.

Publisher Killed

TROY, N.Y., Sept. 1.—(AP)—David H. Plunk, publisher of the record newspaper, was killed yesterday in a fall when he fell 20 feet from the second floor into a pit where a new press is to be installed.

U.K. Coal Output Better Than 1947

LONDON, Sept. 1.—(AP)—British coal production up to Aug. 28 this year total 13,422,100 tons against 12,779,000 tons on the same date in 1947, the ministry of fuel and power said last night. Output last week was 3,508,000 tons compared with 3,362,000 the previous week.

Inside Hollywood

By Bob Thomas
HOLLYWOOD, (AP)—Hollywood had its jag, now it will have to suffer the hangover. These words come from Cecil DeMille, whose career in the past 35 years traces the history of the film business.

His pictures make amazing profits, but he has never won an academy award. The critics usually lambaste his production. "Cora or no cora," DeMille has the master touch for making money from pictures. So he was the logical man to see, now that everyone in town is wallowing and weeping about the present economic state of the industry. He sounded an ominous note.

Handwriting on wall. "Hollywood has had its belated feast; it should have seen the handwriting on the wall. The motion picture industry is the only one I know of that has almost priced itself out of existence. You can't spend two million dollars on a picture that should cost one million and expect to stay in business; because that picture will bring back only a million and a half."

The producer-director said Hollywood's only hope is a return to creativeness. But he doesn't see much movement in that direction. "I go to a lot of industry meetings and hear a lot of talk about everything except how to make better pictures."

Capitol Square. "Good Sam" (RKO) is Leo McCarey's picture, starring Gary Cooper and Ann Sheridan as couple plagued by Cooper's own generosity. The film has several good laughs, and no doubt some people will find it amusing and even philosophical. Others will find it episodic, confused and even embarrassing.

Appeals Court Frees Schacht

STUTTGART, Sept. 1.—(AP)—A German appeals court today acquiesced to Hermann Schacht, former German financial wizard, charges that he was a major Nazi offender. He was ordered freed.

He had been serving an eight-year term after conviction on the charge of a Stuttgart denatification court last year.

Schacht also went free from the courtroom at Nuremberg two years ago, when Hermann Goering, Joachim von Ribbentrop and other close associates of Adolf Hitler were condemned to die for war crimes.

The court held that Schacht's participation in the Nazi government movement from 1936 onward more than outweighed his earlier support of Hitler.

Schacht will be released immediately from the internment camp here. German speculators in the courtroom cheered the verdict. Some hatched flowers to the aged former president of the Reichsbank.

American officials were stunned when told of the verdict.

Montreal Dutch Honor Queen

MONTREAL, Sept. 1.—(CP)—This city's Dutch community last night honored Queen Wilhelmina of the Netherlands at a reception given by Dr. A. Severin, Netherlands consul-general. In a brief address, Dr. Severin paid tribute to the queen's reign.

Dies At Wheel

GOLDEN, B.C., Sept. 1.—(CP)—Frederick Elbert Hunt, 71, retired petroleum, Ont., engineer, suffered a heart attack and died while driving Monday on the Big Bend highway 50 miles south of here, it was learned today. Mrs. Hunt was treated in hospital here for shock.

Social Worker Dies

NEW YORK, Sept. 1.—(AP)—Dr. Alice Schucman, 38, former German social worker who was expelled by the Nazis in 1937, died last night. She was one of Germany's foremost social workers and a campaigner for social reforms for women.

ADVENTURE-LOVING CARLINS, after 10 days in the middle of the Atlantic, aren't calling off their projected round-the-world trip by amphibious jeep. They are shown after arrival in Montreal, Benjamin F. Carlin and his pretty wife chat with Capt. D. Brown, of the tanker New Jersey. They say they will try again from Halifax.

Ore Contract With Japan Boon to Small B.C. Island

VANCOUVER, Sept. 1.—(CP)—The industrial future was brighter today for Japan and a tiny British Columbia island, 50 miles northwest of Vancouver.

The Japanese Board of Trade has placed an order for 250,000 tons of iron ore from Texada Island, a 31-by-six mile strip between Vancouver Island and the B.C. mainland.

Japan, cut off from its Manchurian supply, needs iron ore for its steel mills. The contract will mean the beginning of a new era on Texada Island.

HAS ORE RESERVES
A geological report issued by the provincial government in 1913 estimated ore reserves on the island at 437,000 tons. However, no shipments have been made since 1932. Prior to this 10,000 tons of ore were mined.

Reiders re-opening the ore deposits, the transaction will necessitate construction of a deep-sea wharf, installation of new mining equipment and chartering of at least 25 ships.

The original contract called for shipments to start this month, but it is not believed facilities can be arranged in time. The ore is to be shipped at the rate of 50,000 tons a month which would require at least five deep-sea vessels a month to be loaded.

EASY TO WORK
The Texada deposits are relatively easy to work as there are no big surface exposures which permit direct quarrying.

The contract was placed by the Japanese Board of Trade with the Mitsui Bussan Kaisha Co. of Japan.

The island property is owned by Puget Sound Iron Co. of San Francisco, but an option is held by D. S. Tait, Vancouver mining man.

Final negotiations regarding shipment are expected to be concluded this week.

Duplessis Defends His Padlock Law

Says Province Can't Support Uniform Laws in Canada

By Don Hunt

MONTREAL, Sept. 1.—(CP)—Quebec's provincial rights and the padlock law, two main issues in the recent provincial election were defended yesterday by Premier Duplessis in a welcoming address to Canadian Bar Association convention delegates.

He told delegates to the 30th annual convention that Quebec "cannot support uniformity of laws in Canada but we do favor improvement in our legislation and laws... and are anxious to collaborate and co-operate for the future of Canada."

He said Quebec's padlock law, by which places suspected of Communist activities may be closed by police, is serving its purpose in this province. But, he said, it is a law that might not suit other provinces.

NOT OVER-MANED
Later at a luncheon meeting, Chief Justice Arthur T. Vandenberg of New Jersey outlined an American survey of the legal profession which showed the profession was not over-manned. The CBA is contemplating a similar survey in Canada.

The survey, Mr. Vandenberg said, was organized during the Second World War and was started to investigate United States law schools. However, the commission later decided to make a complete investigation of the law profession.

At the morning session, John P. Hickey of Montreal, president of the CBA, said the duty of the legal profession is "to derive authority from the citizens and use it to defend them."

MEMBERSHIP UP
Mr. Hickey outlined the work of the body and said there had been a noted improvement during the year. Membership was up and financially the association was sound.

Joseph Sedgewick of Toronto, reporting on the conference of commissioners on uniformity of legislation, said it was recommended there be uniformity of laws of common interest to all provinces.

The conference sat all last week under the chairmanship of President W. J. P. O'Meara of Ottawa. Closed sectional meetings on industrial relations, taxation, legal education and training and commercial law were held in the afternoon.

HE WAS BOUND TO GET HURT

GRAND FALLS, N.B., Sept. 1.—(CP)—After escaping injury when his car ran off the road, crashed through three posts and plunged down an embankment, Fred Murray, 18, of Fredericton, N.B., went to a house in telephone, fell into a newly-dug cellar and broke an arm.

Briton Inspects Canadian Plane

LONDON, Sept. 1.—Reuters—Whitney Straight, chief executive officer of British Overseas Airways Corporation, left by air last night for Montreal to inspect the No. 10 plane, several of which have been ordered by the corporation.

New Universal Air Travel Plan Operative Oct. 1

MONTREAL, Sept. 1.—(CP)—A new universal air travel plan which will enable travelers to buy air transportation on credit almost anywhere in the world will be put into operation Oct. 1 by agreement between international airlines and the domestic airlines of North America.

Through the plan, the traveler will be able, by making a deposit with one airline, to obtain a credit card which will be honored for transportation by all other subscribing airlines.

INDUSTRIAL WORKERS' PAY ALL-TIME HIGH

OTTAWA, Sept. 1.—(CP)—The pay envelope of Canada's industrial worker is at its fattest in seven years—perhaps an all-time record.

Average weekly earnings of workers in eight leading industries were \$40.49 on July 1, and the Bureau of Statistics reported yesterday that is a peak for the seven years in which the bureau has been recording payrolls.

The new figure represented an increase from \$40.02 at June 1 and from \$36.15 a year previously.

The payroll advance was computed from "advance" tabulation of figures in eight leading industries—manufacturing, logging, communications, transportation, construction, trade, mining and services such as hotels and laundries.

In manufacturing, the weekly average payroll at July 1 was \$41.20, compared with \$40.62 at June 1 and \$36.47 a year previously.

102 YEARS OLD, HAS SPENT HALF DAY IN SCHOOL

CARRBOROKE, Norfolk, Eng. Sept. 1.—(CP)—Farmer John Bolton will celebrate his 102nd birthday Wednesday by being with the harvest on his 100-acre farm.

Yesterday, however, he cut the 100-acre farm at the family birthday party.

"I went to school once—for half a day," the veteran said. "Then a farmer invited me on a job scaring crows. I took it and that was the end of school for me."

He added that he "always thought that producing food was more important than poring over books... that is why I am still a farmer."

Abbott's Pigeon Flies To Victory

A bird from the loft of H. Abbott flew to victory in the last race of the Gateway Pigeon Club's young bird series over a rugged course from North Battleford recently. Only two birds were able to complete the race.

EDMONTON BULLETIN, Wednesday, Sept. 1, 1948 19
pigeon the run, the other coming from the loft of B. Wood. The winner clocked in at an average speed of 40.00 yards per minute, while Wood's finished in 40.24. Young bird average went to H. Abbott, clocked at 60.18 yards.

SAFETY is Your Business

Give A Dollar To Save A Life!

THE LIFE YOU SAVE MAY BE YOUR OWN!

EDMONTON SAFETY COUNCIL APPEAL FOR FUNDS

To arouse the people of Edmonton to the necessity of reducing the number of accidents in our homes, industries and schools, as well as on our highways and streets, the Council has been formed as a co-operative, non-profit, non-political association of public spirited citizens, business and industrial firms, public officials and representatives of community organizations. Its activities are carried on under the supervision of a large, representative Board of Directors and an Executive Committee. The Council is a service organization. It provides a clearing house for information on all phases of safety and through its manager and various committees, carries on a varied program of education to arouse a community spirit and a consciousness of safety. Its objectives are: Traffic Safety, Child and School Activities, Commercial Vehicle Safety, Industrial Safety, Home Safety and Fire Prevention.

\$150.00 IN PRIZES

Your Support Is Needed!

THIS IS HOW YOU JOIN—

Associate Membership \$1.00

The self-explanatory chart will guide your estimate for the Safety Council Contest. Your dollar membership entitles you to enter. One person may win \$50.00, \$100.00 or \$150.00. Contest closes September 28th, 1948.

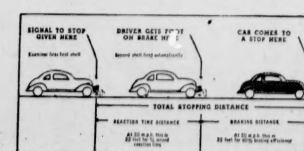

Simply mail your dollar membership to the Edmonton Safety Council, 209 Williamson Building, or give your dollar to an Edmonton Safety Council representative wherever you are an official Safety Council card displayed at retail stores. You will never spend or invest a more important dollar. Accidents CAN be prevented. Other cities have reduced accidents as much as 80%. Edmonton can do it, too, with YOUR support. Just one dollar for year-round safety—a dollar that may save your own life or your children's lives.

ENTER THIS SAFETY CONTEST

ACCIDENTS HAVE INCREASED 100% IN EDMONTON

1946 641
1948 1,246

(First Seven Month Period)

Simply estimate the stopping distance of a car on dry pavement at a speed of 25 m.p.h. \$100.00 will be given to the first correct answer to each of the following: Thinking distance, braking distance, total stopping distance. Entry must be accompanied by membership application.

Why You Should Join!

Because 75 Edmonton citizens were killed last year. Because 7,950 were injured in accidents, 280 permanently crippled for life. Something must be done NOW! Accidents can be prevented with your dollar. The Council is operated by leading business men giving their time free. Your dollar may save a life—that life may be your own!

MAIL THIS COUPON FOR YOUR MEMBERSHIP

TO: EDMONTON SAFETY COUNCIL, Williamson Building, Edmonton. Herewith attached is ONE DOLLAR for my associate membership.
